Basic:

move peg   to   2L   using   left psm

           to   2R   using right psm

           to   4L   bilaterally

mid-level:

move peg   to   6L   using   left

           to   2L   using   left

           to   2R   bilaterally

           to   6R   using right

           to   1R   using right

           to   4L   bilaterally

Advanced-level:

move peg to 6L using left
to 6R bilaterally
to 1R using right
to 1L using bilaterally
to 3L using left
to 3R using bilaterally
to 2R using right
to 2L using bilaterally
to 4L using left

- Move peg from 4L to 2L using left gripper, move peg from 2L to 6R using right gripper,
- then to 2R using right gripper（虚假指令）
- Stop（在夹起来后移动一点点时喊/Move to 1R using right gripper
- Move to 1L using dual arms, then using 3L using left gripper,
- Stop/Continue (在夹起来后移动一点点时喊, stop 俩秒)
- then to 3R using dual arms,（虚假指令）
- Stop（在右手夹住并且移动一段时间时喊）
- Move to 2R using right gripper, then to 2L using ~~right gripper~~, then to 4L using left gripper

bilaterally
